City, State, Zip

Dear :

In the current climate of change and volatility in the plastics industry, the technical information you access and the personal networks you create directly impact your future and your career. That is why you should seriously consider membership in the Society of Plastics Engineers.

SPE delivers top-flight, technical information and industry contacts at many levels—nationally...internationally...regionally...and, perhaps most importantly...locally. As a member of SPE's _____ Section, I personally invite you to take advantage of the many professional benefits of SPE membership. You'll receive top-flight global benefits, such as:

- ✓ A full year of *Plastics Engineering*, the leading magazine of the plastics industry;
- ✓ Targeted technical information through access to up to 23 SPE Technical Divisions;
- ✓ Expert advice from our FREE online technical message boards and discussion forums;
- ✓ Focused research with FREE access to our online technical database;
- ✓ Career development through FREE access to SPE's career solutions website, including job-search capabilities and career development advice;
- ✓ State-of-the-art plastics training and education—including online and in-plant programs.

Perhaps more importantly, you'll also benefit from local resources, such as membership in an SPE Geographic Section. The _____ Section, headquartered in _____, sponsors technical meetings, tours, and networking events, enabling you to meet other plastics professionals, keep abreast of new technologies, and stay in contact with your local plastics industry. You'll also receive our Section newsletter, and have an opportunity to enhance your leadership skills by becoming involved in Section governance. Membership in the _____ Section—or your choice of any one of SPE's other Sections—is free with your SPE membership.

SPE is adding and enhancing benefits every day. As a longstanding SPE member, I can personally vouch for the excellence of the technical information, professional development, and networking resources offered by the Society of Plastics Engineers. I urge you to join today!

Sincerely,

Name

Section Membership Chairperson

PS: Feel free to contact me directly, at () _____. I'd be happy to answer any of your questions about SPE membership, or the _____ Section. Or complete the enclosed SPE Membership Application and return it to SPE headquarters today or join online at www.4spe.org!
