WJT Associates presents
A ONE DAY SEMINAR with Bill Tobin

Implementing Scientific Moulding

This seminar has been developed to include cost-effective production and design techniques that can benefit even those with extensive experience. Those who would most benefit by this are:

- Quality – Inspectors and managers
- Set up technicians, lead operators
- Moulding Supervision
- Tool and Machine Engineering

Who Should Attend

Every attendee will receive the valuable book *Qualification Startups and Tryouts 2ND Edition* that is full of procedures and check lists along with a CD preprogrammed with all the experiments used to optimize an injection moulding cycle.

Where and When

Date: April 17, 2008
Location: Delta Toronto Airport West
Address: 5444 Dixie Road, Mississauga, Ontario

Program Outline

- Easy plastics chemistry
- Robust machine?
- Sizing components for success
- The Pre Tryout
- Understanding temperature
- The preliminary cycle.
- Determining gate freeze off time
- Determining the cooling time
- When to Eject
- Testing for cavity balance
- Minimizing the clamp pressures
- Easily calculating Cp and Cpk
- Submitting the samples
- Mould maintenance procedures
- Mould Installation, Mold Pull, and Machine startups
- Mould Storage
- The universal spreadsheet

Schedule

8.00 am: Registration
 8.30 am: Welcome and start
 4:30 - 5:00 pm: Q&A Close
 Lunch and breaks will be provided.

About the presenter

Bill Tobin is a frequent presenter and trainer at conventions and professional functions as well as a prolific writer. He has taught seminars in many countries all over the world. You will leave the seminar with the tools and techniques that can be immediately applied on the job to improve productivity and enhance profit.
