#### **About SPE**

The Society of Plastics Engineers, Inc. (SPE) is the premier source of peer-reviewed technical information for plastics professionals. Founded in 1942, SPE takes action every day to help companies in the plastics industry succeed by spreading knowledge, strengthening skills and promoting plastics. Employing these vital strategies, SPE has helped the plastics industry thrive for over 60 years. SPE has become the recognized medium of communication among scientists, engineers and technical personnel engaged in the development, conversion and application of plastics.
