

Biography for Dr. Xiaofeng (Chris) Ren

Dr. Xiaofeng (Chris) Ren is a Senior Research Scientist at Syensqo Polymer Additives, where he specializes in developing innovative stabilization technologies and stabilizer solutions. He earned his Ph.D. in Material Science and completed postdoctoral research in the Department of Polymer Engineering at the University of Akron. Before joining Syensqo and Solvay, Chris spent six years as a Senior Chemist with Reichhold's Polymer Composites team. He possesses extensive expertise in additives, polymer resins, and polymer composites, particularly for applications in the automotive, building and construction, and agricultural film sectors.
