

Changing The Perception Of Plastics One Classroom At A Time

“Energy and Enthusiasm”—Rolf Tremblay, Goodman Middle School

I want to express my sincere thanks to both of you for bringing the PlastiVan program to my students at Goodman Middle School. There was quite a buzz when students came to class on Wednesday. That showed that the presentation made a real impression on the kids. They had a variety of questions stemming from the demonstrations and the urethane "mushrooms" were quite a hit.

The energy and enthusiasm you put into your presentations are amazing and enviable. It was a great day!
