Science Rules

Your Awesome Your Awesome Your Awesome

Dear Ms. Margie,  
Thank you so much for the session.  
I absolutely loved it! Now, normally science  
isn't my favorite subject, but you made  
me change my mind. It is so interesting  
and I would have never thought  
about all the things plastic does in  
our life! The water with that powder  
was my favorite experiment. I  
kept on finding myself with my  
mouth open totally shocked! It  
was soooooo fascinating! You  
are great at what you do. You're  
so energetic, and I never felt bored.  
Thank you so so so much!

Thanks again,
